## STORYBOOK ALBUMS

How can one moment last forever?

Images preserved are the only lasting way to memorialize an event...the beginning of your family, the celebration of the start of a new life – your unique love story.

Those memories from your once-upon-a-time are a legacy and your wedding album an heirloom to be treasured by loved ones for generations to come, a reflection of your style – a work of art.

We have searched the world over to find albums beautiful enough to call our own. We handcraft each album, custom designing it like no other.

How can one moment last forever?

Without an album, all those moments will be lost in time like tears in the rain...our storybook albums are timeless heirlooms!

Storybook albums start at \$1,500.

## PHILOSOPHY

Ever After Visuals is Mindy & Joriana Belcher, a mother & daughter with vision – we see stories of emotion and capture them. After your day, in prints, albums and in slideshows, we will visually tell your love story in a customized unique way.

And on that one day like no other, we will document the love and relationships with your mate, your family, your friends...the entire day...in a way that no one else can.

Visualize what we collect at every wedding, moments that take the breath away. The groom, love all over his face at the moment he first sees his bride. The bride, so beautiful, happily ever after in her eyes. The flower girl, spinning in her pouffy new dress. The father, holding back the tears as he gives his 'little girl' away.

Our images are filled with emotion and romance – they are timeless, modern. We don't want you to just *remember* that you had a wedding day...we want you to *feel* the emotions all over again.

This is your story, your day, your Once-Upon-A-Time.

Let us capture your moments – Ever After.

*"Capturing Your Once Upon A Time"*
